Open Post Doc position in the BAZOOCA -project

The Department of Marine Ecology, University of Gothenburg, Sweden, is looking for a Post Doc in Zooplankton Ecology. The Post Doc position is linked to the BONUS BAZOOCA -project. The application must be received no later than 19 March 2009. The full announcement can be read at the BONUS Portal's News-section www.bonusportal.org/news.

BONUS metadatabase will be incorporated into the SeaDataNet

BONUS Data Management Group had its first meeting in February in Helsinki with the aim to design the BONUS metadatabase. Because of the benefits arising from the standardization and interoperability point of view, it was decided that the BONUS metadata will be put, stored and maintained in the SeaDataNet system (www.seadatanet.org). BONUS EEIG Secretariat is currently negotiating with the SDN and starting to develop the necessary interfaces.

CERF Conference in Portland, USA, 1-5 November 2009 includes a Baltic Sea session

The forthcoming Coastal and Estuarine Research Federation's (CERF) Conference, Portland, USA, 1-5 November 2009 will feature a thematic session "Integrating Science and Management for the Baltic Sea Restoration". Conveners of this session are Jacob Carstensen (NERI, BONUS HYPER), Christoph Humborg (SU, BONUS RECOCA) and Jesper Andersen (DHI, co-editor of the HELCOM's Integrated Baltic Sea Eutrophication Assessment). Read more at www.bonusportal.org/news.

best regards,

BONUS EEIG Secretariat
