

You are reading the BONUS Bulletin 5/2010. The bulletin informs about important news and activities in the BONUS community. If you wish to unsubscribe, please send an e-mail to [tiina.tembe@bonuseeig.fi](mailto:tiina.tembe@bonuseeig.fi).

## **COLLECTING OF BONUS MID-TERM FEEDBACK CONTINUES**

BONUS EEIG Secretariat continues collecting BONUS+ mid-term feedback from PROJECT COORDINATORS, PRINCIPAL SCIENTISTS and YOUNG SCIENTISTS. **Deadline is Saturday 8th of May**. Both downloadable and on-line forms are available at [www.bonusportal.org/mid-term\\_assessment](http://www.bonusportal.org/mid-term_assessment).

## **Summer School on Stable Isotope Analysis, Stockholm, 15-23 September**

BONUS+ project AMBER (Assessment and Modelling Baltic Ecosystem Response) invites PhD students from all around the Baltic to the summer school on Stable isotope analysis in biogeochemistry with focus on the Baltic Sea and its catchment, Stockholm, 15-23 September 2010. Workshop will feature Prof. Brian Fry - author of "Stable Isotope Ecology" and several other renowned authorities in the field. More details at [www.io-warnemuende.de/stable-isotope-analysis.html](http://www.io-warnemuende.de/stable-isotope-analysis.html).

## **Eurofleets Ship-Time Call Open until End of May**

Funding possibilities are offered to multi-national collaborative research projects on all fields of basic marine research. Proposal submission deadline is May 31st 18:00 hours CET. Read more at [www.eurofleets.eu/np4/90.html](http://www.eurofleets.eu/np4/90.html).

## **Workshop on Uncertainties of scenario simulations at SMHI, Norrköping, Sweden, 14 October 2010**

The Workshop is organized by the BONUS+ projects ECOSUPPORT and IBAM and will be of interest for scientists concerned with modelling of climate scenarios, nutrient load and atmospheric deposition scenarios, fishery scenarios, risk management, etc. with focus on the Baltic Sea Region. Posters, presentations and discussions will topic on methods to estimate uncertainties of scenario simulations and possibilities to combine Bayesian risk analysis and climate change ensemble modelling. Invited speakers are Dr Samu Mäntyniemi and Dr Jouni Räisänen from University of Helsinki. Abstracts are welcome until 15 September 2010. Download the [Flyer](#), and get more information at [www.baltex-research.eu/ecosupport](http://www.baltex-research.eu/ecosupport).

## **Nordic Hydrological Conference 2010, Riga, 9-11 August**

The XXVI Nordic Hydrological Conference 'Hydrology: From Research to Water Management' will be held in Riga, 9-11 August, 2010. Themes include: Climate change impacts and adaptation strategies, water management within the context of European directives; hydrological information system and developments in modelling; measurements and monitoring; extremes and uncertainties; groundwater and surface water interactions; cold climate hydrology. Abstracts are accepted until 30th April. Find more at [www.nordicwater-2010.com](http://www.nordicwater-2010.com).

## **Ocean Engineering Society – Baltic Symposium 2010, Riga, 25-27 August**

The 4th US Ocean Engineering Society - Baltic Symposium "Integrated Oceanographic Observation Systems and Data bases for Climate Change Research in the Seas" will take place in Riga, 25-27 August 2010. Symposium will include 3 parallel tracks: (A) Integrated ocean observing systems and oceanographic data bases; (B) Modelling of marine systems and stresses on them (C) Innovative technologies for environmental monitoring. Full papers of this symposium are published in a peer-reviewed on-line source IEEE X-plore. Abstracts are accepted until 17th July. Find Call for Papers at <http://kalme.daba.lv/en> or [www.oceanicengineering.org](http://www.oceanicengineering.org).

best regards,  
BONUS EEIG Secretariat
